#### ABOUT THIS CATALOG...

This catalog has been compiled similar in format to the factory Service Parts lists for Packard Automobiles of (1935) 120 through (1956) 56<sup>th</sup> series. Sections covering Chassis and Body parts are separated into Groups named to be identified with a recognizable portion of the automobile, such as Bonnet, Brake, Bumper, etc.

Each group has a Group # series. For example, Brake has a Group # series from 1.0005 to 1.379. All brake related parts are listed in the Brake group and referenced with their respective Group #'s. The Group # is assigned to cover a part Description and Application. All like functioning parts, though they may differ in design or part # from year to year, are referenced within the same Group #.

When placing an order, it is necessary only to supply the Group # and we will identify the Packard part # according to the Year and Model of the car.

PLEASE KEEP IN MIND THAT PARTS LISTED IN THIS CATALOG ARE NOT INCLUSIVE OF OUR ENTIRE INVENTORY. WE HAVE MANY ADDITIONAL PARTS (TOO NUMEROUS TO LIST) ASSOCIATED WITHIN EACH GROUP. IF THE PART REQUIRED IS NOT LISTED, PLEASE CALL OR WRITE FOR AVAILABILITY AND PRICE.

#### ORDERING INFORMATION

#### Customer Service Line: (317) 736-6233

If you have questions concerning items not listed in this catalog or need clarification about those items that are listed, please call us at (317) 736-6233 and we will be glad to assist you.

#### Toll Free Order Line: (800) 472-2573

As a courtesy to our customers, we have a Toll Free Order Line for calls within the U.S. Please take a moment prior to calling and complete the enclosed ORDER FORM. Providing the specific information on the form (including factory part #'s, when available) helps to expedite the order and reduces the possibility of the incorrect parts being shipped. Orders received by 12 P.M. can usually be (but not guaranteed to be) shipped the same day.

#### Internet: www.packardparts.com

Orders can be placed through our secure website at any time. You can view pictures of the parts and associated illustrations (where applicable). Orders placed by 12 P.M. can usually be (but not guaranteed to be) shipped the same day.

#### FAX Line: (317) 736-6235

Complete the enclosed ORDER FORM including detailed Vehicle Information, Customer Information and Method of Payment. Fax orders received prior to 12 P.M. can usually be (but not guaranteed to be) shipped the same day.

#### Mail Order

Complete the enclosed ORDER FORM including detailed Vehicle Information, Customer Information and Method of Payment. Estimate shipping charges using instructions found in the "Shipping & Handling" paragraph.

Order Toll Free: 800-472-2573 Discover-MasterCard-Visa

#### **Shipping & Handling**

Our standard shipping method is by UPS/Fed Ex ground service. For faster delivery, 2<sup>nd</sup> Day or Next Day air service can be requested, at a higher rate. Shipping charges are determined by weight, zone, and number of packages. Please allow 10% of order (\$5.00 minimum) for shipping & handling charges. Overpayments will be refunded and underpayments will be billed. Oversize packages will be shipped by truck freight; freight collect. C.O.D. fees are \$5.00. Indiana residents please add 7% sales tax.

#### Shipping Outside of U.S.A.

Orders may be placed by phone, Internet, fax, or mail. Since shipping charges are difficult to estimate, credit card payment is preferred. Payment must be made in U.S. funds. Specify shipping method (Air Mail, Surface Mail, or UPS/Fed Ex Air Delivery) or shipment will be made Air Mail.

#### **Return Policy**

In the event that a return must be made, please consider the following:

- 1. All returns, regardless of reason, must have prior authorization. Call Customer Service to get a Return Authorization number, which is to be written on the return label. Returns without an authorization number on the package will be refused.
- 2. Please inspect your orders immediately upon receipt for accuracy & condition. Incorrect items may be returned within 30 days of invoice date for an exchange or refund.
- 3. A 20% restocking fee (25% on Steele items) will be charged on items returned for reasons other than due to error.
- 4. Claims or requests for return after 30 days will only be considered for exchanges or credit towards future orders.
- 5. A copy of the original invoice must accompany all returns.
- 6. All returned items must be unused and in resaleable condition.
- 7. Returns must be sent postpaid.

#### **Core Charges**

Certain items listed as "exchange" (or exch.) require a refundable core charge. The amount of the core charge varies depending upon the item, but is generally calculated at 40% of the list price. Certain items require receipt of the core in advance. The core charge is refunded upon return of a rebuildable core. Cores returned after 90 days will receive a pro-rated core refund.

#### **Method of Payment**

We accept MasterCard, Visa, check, money order, and C.O.D.

#### Pricing

Prices and availability are subject to change without notice.

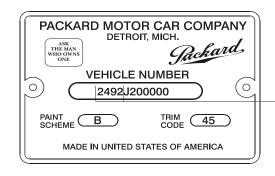

**NOTES** 

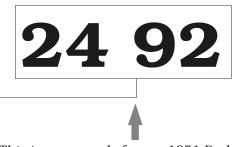

# Before you call us . . .

# Our Customer Service Representatives can serve you faster if they have your vehicles "Body Style Number"!

Many of the applications of our parts are determined by the body style of the car. This information is coded on the plate mounted to the firewall or doorpost of your car. Packard used several different styles of codes over the years. The key identifying numbers on your vehicle is the 4 digit Body Style Number. For instance, 1950-56 Packards utilize the first 4 digits of the Vehicle number as the Body Style Number. Packards from 1937-56 used a 4 digit Body Style Number and 1932-36 Models used a 3 digit number. Our Customer Service Representatives can serve you faster if you can supply these numbers.

This is an example from a 1951 Packard. The 24 identifies it as a 1951 model and the 2 tells us it is a 4 door sedan. Below is listing of what the last digit of the Body Style Number means.

### The last digit of the body style number.

-	1942 1946-56 lipper) (and all Clippers)
4 Door Sedan/Touring Sedan 1, 2 2 Door Sedan 4 .	
2 Door Sectian         4 .           Club Coupe         .           Sectian         .           6 .         .	
Convertible Sedan	
Convertible Coupe 9 . Business Coupe 8	
Limousine 0 . Hardtop Coupe	
Station Wagon/Amb./Hearse	3

\*These are just examples. Not all years are covered here. Our Customer Service Representatives have more detailed information!

## **Our Customer Service Representatives can serve you** faster if they have your vehicles "Body Style Number"!

Many of the applications of our parts are determined by the body style of the car. This information is coded on the plate mounted to the firewall or doorpost of your car. Packard used several different styles of codes over the years. The key identifying numbers on your vehicle is the 4 digit Body Style Number. For instance, 1950-56 Packards utilize the first 4 digits of the Vehicle number as the Body Style Number. Packards from 1937-56 used a 4 digit Body Style Number and 1932-36 Models used a 3 digit number. Our Customer Service Representatives can serve you faster if you can supply these numbers.

The 24 identifies it as a 1951 model and the 2 tells us it is a 4 door sedan. Below is listing of what the last digit of the Body Style Number means.

### The last digit of the body style number.

Up to 1942 1946-56 (exc. Clipper) (and all Clippers)	*These are just

### Receive 10% off all Steele<sup>\*</sup> Rubber Orders placed through Max Merritt Auto!!

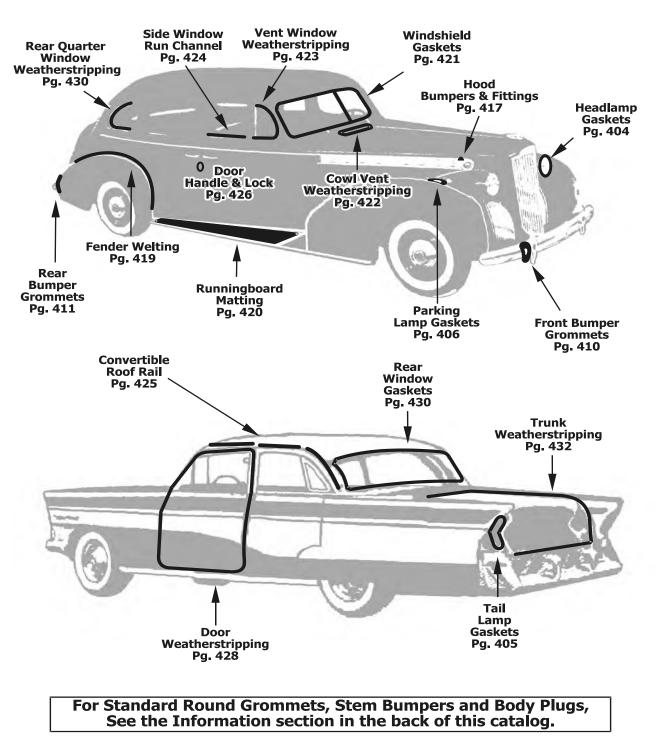

This section contains reproduction parts we know to fit vehicles manufactured by the Packard Motor Car Company. The descriptions and usages are based upon the best of our research of parts manuals and owner information. We welcome any additional information regarding usage and typographical errors. We regret that our listing is not as complete as we would like it to be. However, we will be adding new parts to this section in the future depending upon receipt of suitable originals, and market demands. Contact us if you have a need not listed.

\* \$20.00 minimum order; Discount not available on all items

Order Toll Free: 800-472-2573 Discover-MasterCard-Visa To view parts or illustrations, please visit our website. www.packardparts.com Info: 1-317-736-6233 • Fax: 1-317-736-6235

# Our Customer Service Representatives can serve you faster if they have your vehicles "Body Style Number"!

Many of the applications of our parts are determined by the body style of the car. This information is coded on the plate mounted to the firewall or doorpost of your car. Packard used several different styles of codes over the years. The key identifying numbers on your vehicle is the 4 digit Body Style Number. For instance, 1950-56 Packards utilize the first 4 digits of the Vehicle number as the Body Style Number. Packards from 1937-56 used a 4 digit Body Style Number and 1932-36 Models used a 3 digit number. Our Customer Service Representatives can serve you faster if you can supply these numbers.

the 2 tells us it is a 4 door sedan. Below is listing of what the last digit of the Body Style Number means.

# The last digit of the body style number.

	Up to 1942 (exc. Clipper)	<b></b>
4 Door Sedan/Touring Sed 2 Door Sedan	an 1, 2, 3 4 5 6 7 9 8 0	 *These are just examples. Not all years are covered here. Our Customer Service Representatives have more detailed information!

### Engine Mounts

If you require Revulcanization service We have to have your rebuildable core first in order to proceed.

 Be sure to include your vehicles make, year, and body style

These parts are designed for antique and classic vehicles for use as specified by the original manufacturer

Shipping is at your risk

• We will not accept liability for the cost of replacing original metal cores for Revulcanization which are lost in shipping coming to us. Unless prior arrangements are made for extra insurance (under terms acceptable to the carrier), we insure strictly for our services on the return ship ment.

1932 Insulator, motor mount support. Front right and left. Revulcanizing service only. Please send in your com-

6

plete metal cores, and allow 3 weeks. Replaces #197554, 197564. For Light 8 only.

### 30-0402-11

1932 Insulator, motor mount support, rear. Revulcanizing service only. Please allow 3 weeks for

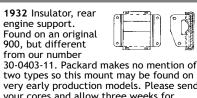

service. Send in your complete metal cores. For Series 900 Light 8 and Twelves. For #201470 mount.

### 30-0403-11

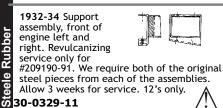

tion of two types so this mount may be found on very early production models. Please send in your cores and allow three weeks for service.

### 30-0508-11

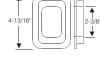

very early production models. Please send in your cores and allow three weeks for service.

### 30-0509-11

1933-34 Cushion, motor mount insulator. Rectangular ring type. Faithful reproduction of #209770 as found on all Eights during these years.

0  $\bigcirc$ 

4-3-3/8"->

### 30-0156-11

1933-34 Motor mount, motor stabilizer bracket, right hand side. Send in your old metal upper and lower pieces. Allow 3 weeks for service of #207544 as used on: 1933: 1001 - 2 - 3 - 4 1934: 1100 - 1 - 2 - 3 - 4 - 5

30-0184-11

#207818. This is a complex, triple layer, laminated engine support requiring a lot of work to disassemble, clean, and revulcanize with new rubber in a difficult mold. We will require all of your original steel pieces. Allow 3 weeks for service. Twelves only.

### Vulcanized Windshield Channel

Ready to install. Great fit. Authentic look.

Few things are more essential to a quiet weatherproof car than a quality windshield gasket. Steele Rubber Products' vulcanized windshield gaskets are the finest you can buy. With authentic fit and look, our gaskets perform as well on the Concours as they do on daily drivers. When only the best will do, go with Steele Rubber Products.

A note on reveal molding: On models that had perimeter reveal molding as a option, the description field will indicate which gasket to buy. We do not currently offer the reveal molding.

Street Rodders! If you are removing the divider post, Please see our cross reference chart on pages 552-553.

Door Opening Weatherstrip 1928-34 Weatherstrip, short T-rubber, 7/16"

high, for some door tops.

Closed bodies.

### **Door Weatherstrip Kits**

Steele is better. It's an open and shut case.

No other piece of weatherstrip on your car is asked to do more or take a greater beating than the door weatherstrip. These strips need to be correct and durable. If you want your doors to open easily, close tightly, and seal firmly for years to come, you need Steele Rubber Products weatherstrip.

**1946-47** Weatherstrip, front door kit. Includes sufficient weathestrip for door perimeter and hinge pillar (our number 30-0351-73). For front doors of sedans only.

### 90-0144-72
